## Typhoid Epidemic Feared Along 100-Mile Flood Front in North

### MORE RAIN IS FORECAST TONIGHT

Hundreds Homeless And Spring Crops Ruined; One City Isolated

SAN FRANCISCO, Feb. 25. (AP)—Thousands of acres in Northern California's fertile valleys lay under water today as health officials urged precautions against a possible typhoid epidemic.

The weather bureau forecast more rain today and tomorrow.

To the 100-mile-long flood-stricken district along the Sacramento river were added fresh levee breaks at scattered points beside the Stanislaus, San Joaquin and Merced rivers. Unofficial estimates placed total damage to crops and buildings at more than \$1,000,000.

Sounds Health Warning

Dr. John J. Sippy, San Joaquin county health officer, cautioned refugees to undergo inoculation for typhoid and to drink no water from flooded wells. No cases of the disease have been reported, he said.

More than 500 persons were homeless.

The San Joaquin river tore through a 150-foot levee section eight miles east of Antioch, submerging 3600 acres of land, including 600 acres of asparagus that was to have been harvested yesterday.

\$40,000 Crop Damage

Waters ripped through a 70-foot break in the Stanislaus river in southern San Joaquin river causing \$40,000 damage to spinach and pea crops.

Near Ripon, the Stanislaus poured through a 25-foot hole over about 3000 acres of farm land. Two breaks near Merced were reported. Twelve families fled in the path of a breach 14 miles north of the city. Nearby, severe (Please Turn to Page 9, Col. 3)

### Quiz Trio in New Orleans Murder

NEW ORLEANS, Feb. 25. (AP)—A Mardi Gras dawn today disclosed the slaying of a 29-year-old woman and brought the questioning of three persons.

Mrs. Estelle Hughes, a visitor from Panama City, Fla., who had been here two months with her 9-year-old daughter, Janelle, was found with a bullet hole in her temple in a remote grassy spot behind the Louisiana and Arkansas railway station.

The police said she had gone out with friends last night and one person questioned, Jack O'Day, a jockey, was quoted as saying he was "too drunk to know anything" about what happened and said: "I might have shot the woman for all I know."

**PASS 'MARKET AIDE'**

Financial "dictatorship" of Gov. Eugene Talmadge of Georgia met opposition when Comptroller General William Harrison (right) refused to countersign the first warrant under the governor's proclamation setting up his "dictatorship" over unpaid balances on 1932-1933 appropriations. ## SNOW MARKS FRENCH CHECK TWO TOMBS PLANE SALE

Slide Victims Buried Beyond Recovery; 25 Others Trapped

OURAY, Colo., Feb. 25. (AP)—Searchers today marked a glacier-like mass of snow and ice as the temporary tomb of two of the three victims of a snow avalanche that toppled down Devil's Slide, knocked over buildings and trapped more than 25 Camp Bird miners yesterday.

The bodies will remain in the crypt until spring thaws melt it. Fifty miles farther south in the same San Juan mountains, five other bodies are in a similar snow mass and they also will remain there until spring. They were victims of another snow avalanche that occurred at the Hesperus gold mine near Mancos, Colo., just eight days before yesterday's Camp Bird tragedy.

The hopelessness of attempting to search the great mass of snow and ice caused when the Camp Bird slide piled up against a hill brought a decision by officials to abandon the hunt for the bodies of the two mine workers. A third body, that of Mrs. Rose Israel, camp cook, was recovered.

Breaking loose from the crazy peaks rimming the canyon, the heavy snow, estimated to have lain as deep as 18 feet, skidded down the slide yesterday, swept through the lower floor of a two-story bunkhouse, wiped out the \$100,000 mill and a snow tunnel connecting the buildings, and came to rest a half-mile farther down.

### Youth in 'Iron Lung' Succumbs

OAKLAND, Feb. 25. (AP)—Raymond Rambo's long and courageous fight against infantile paralysis is ended.

The 19-year-old youth, whose unflinching cheerfulness endeared him to attendants at the hospital where he spent 659 days in an "iron lung" respirator, died last night of a digestive disorder resulting from the dread disease.

Firm in his faith of eventual recovery, Raymond kept up with his school work. He even learned to operate a typewriter key in Morse code, although he had to move the key with his chin for his hands were paralyzed.

### COUNTY PORT BOARD NOW SOUGHT

Meeting At Newport To Plan Administration Is Due Tomorrow

Newport harbor has been made into a real port—the next step is to arrange for its administration so that it will give the maximum service to the public. An act of the state legislature, perhaps creating a harbor commission, may be one of the next moves in bringing the port to the full measure of its possibilities as the outstanding yacht harbor of this coast.

Such was the situation being considered today by the board of supervisors as they accepted an invitation to attend a committee meeting at Newport Beach tomorrow night, at which the matter will be thoroughly discussed.

The gathering has been called by the harbor committee of the Newport harbor chamber of commerce, of which Sam Meyer is chairman. It will take place at the Percy Wilson cafe, Palm street and Bay Front, Balboa, at 6 o'clock.

Representatives of the Newport chamber of commerce, with city officials, will discuss with the supervisors the possible steps to be taken for the most efficient administration of the harbor, pending possible legislation to establish a definite harbor program.

### Ethiopians Take Italians' Base

ADDIS ABABA, Feb. 25. (AP)—The Ethiopian government announced today that its troops had invaded the Italian colony of Eritrea Feb. 19, destroying an Italian base.

The base was described as located at Amaga on the Setit river on the northwest border of Ethiopia where Ethiopia, Eritrea and the Anglo-Egyptian Sudan meet.

The purported victory appeared to be a continuation of a northward thrust by Ethiopian troops in which the government said 668 Italians had been killed in two previous clashes.

### AKRON STRIKE SITUATION CRITICAL

Sheriff Wants Troops Called In Goodyear Plant Walkout

AKRON, Ohio, Feb. 25. (AP)—Sheriff James T. Flower told national guard headquarters at Columbus today troops are needed to control the strike situation at the Goodyear Tire & Rubber company, but a national guard observer reported there is no present need for militia.

Flower's report was made to Col. L. B. Brown, of the adjutant general's office in Columbus. Maj. Gilson D. Light, national guard observer at the Goodyear plant, informed Brown that about 2000 men were around the plants, but that they were orderly.

"Situation Critical"

The sheriff said he also had talked with Gov. Martin L. Davey, apprising him "how critical the situation is."

Brown said he told Sheriff Flower a good reason would have to be shown before troops were sent.

Pickets blocked a street intersection leading to one of the main plants of Goodyear today and another group prevented several freight cars from entering the plant.

Many Are Armed

Most of the workmen were gathered in the vicinity of the plant, many armed with clubs, missiles and other weapons. Their belligerent attitude caused excitement to run high.

Some of the strikers wore "tin hats," as their metal helmets are called, in evident preparation for any kind of battle.

The controversy which led to picketing began over the company's laying off of tire builders.

The strikers are asking three days' notice for men about to be laid off.

### Rock Pile Plan Up to Supervisors

### Too Heavy to Push That's What Lubitsch Says About Mae West in Row

HOLLYWOOD, Feb. 25. (AP)—Mae West wants you to know that she's no "push around" for anyone—and particularly not for Ernst Lubitsch, film producer.

A whirlwind controversy between the huxton screen beauty and the movie magnate sailed merrily onward today, with the two running a dead heat in the matter of tossing aspersions, assertions and allegations at each other.

Mae—through her managerial forces—scored today when she said Lubitsch "in his Hitler way," could not push the blond actress "around."

"Lubitsch thought, in his Hitler way," said Miss West's publicity department, "that he could push Mae West around. He wouldn't even give her the cameramen she wanted."

"Well, in the end, she pushed him around. After all, she was in the show business long before Lubitsch ever thought of being."

Lubitsch, who is 44, scored the last blow, however, and perhaps the most telling one.

"Try to push her around, did you?" he grinned. "She's much too heavy."

Lubitsch made his remarks as he paused between trains at Chicago. Of the observation that she was in the show business long before Lubitsch "ever thought of being," the producer was in complete agreement. "Of course she was," he said. "She's older than I am."

"Our last argument," said Lubitsch, "was over my insistence that she give Victor McLaglen a break in 'Klondike Annie,' her latest picture."

Miss West originally wrote the part and reduced McLaglen to a mere "stogie." Lubitsch said: "You can't hire a man like McLaglen and degrade him to the rank of an extra," he observed.

Miss West was expected to reach Hollywood late today, her managers claiming a victory in the "push around" battle.

### MOORE FREED NAB 50 FOR IN SHOOTING BAD LIGHTS

Drop Charges Against Man Who Wounded Wife's Escort

Charges against Lorin Moore, 35-year-old Works Progress administration worker, who shot the man with whom his wife was returning from a downtown dance on Feb. 12, were dismissed today by Justice of the Peace D. T. Hayden of Tustin.

"In furtherance of justice," said Justice Hayden.

Move for the dismissal of charges of assault with intent to commit murder was made by Deputy District Attorney Harold McCabe.

Prosecution Not Desired

He told the court that 27-year-old Ed Wollett, laundry worker who fell beneath Moore's fire, had made a statement under oath that he did not desire to prosecute Moore.

Plans of Defense Attorney N. D. Meyer to plead the "unwritten law" to save his client from a prison sentence were dropped.

Gave Self Up

Moore gave himself up to Sheriff Logan Jackson on Feb. 13, after being the object of an intensive search over the entire county. He is asserted the night before to have trailed his wife and escort from a public dance to a spot just southeast of Santa Ana, after an exchange of words, the bullet seriously injuring Wollett was fired.

Moore told police and reporters after his arrest that jealousy had been the cause for his action.

ST. LOUIS, Feb. 25. (AP)—Charles A. Beard, author and historian, told educators today that attempts to bar the study of "controversial" subjects such as Communism represent "an effort of selfish and narrow interests to conquer the schools for their own purposes and ends."

Beard, who addressed the department of superintendence of the National Education association, urged a vigorous defense of the values of scholarship against educational pressure. Nearly 10,000 educators are attending the department's convention.

### COUNCIL WILL SEEK TRIAL OUSTER

Report By Webb Shows Legal Barriers Will Hinder Battle

A court case to test legality of a race track betting agency operating on North Main street will be sought by City Attorney L. W. Blodgett. Mr. Blodgett informed the city council and a delegation from the First Methodist church last night that he will confer with District Attorney W. F. Menton with such a case in view.

That such a move will encounter plenty of legal barriers was indicated in Mr. Blodgett's report that Attorney General U. S. Webb has delivered an opinion to the effect that such an agency is legal so long as bets actually are forwarded to the race tracks and run through the pari-mutuel machines there. He also reported a test case based on similar facts was carried out in Los Angeles in October, 1935, and it was held that operation of such an agency was within the law. Mr. Blodgett further reported that opinions of the district attorney's office here and in Los Angeles are to the effect that an amendment to the horse racing act has nullified a previous law prohibiting forwarding of bets to a race track.

Petition Presented

A petition was presented to the council on behalf of the board of directors of the First Methodist church, by the Rev. Dr. George A. Warner, pastor, urging the council to refuse a license to the betting agency here. The place is operating without a city license, but Mr. Blodgett reported he had been unable to find any business classification for the agency under which it can be required to pay a license.

The city attorney presented a licensing ordinance requiring a \$500 fee, which he said was available if the council wished to pass it. The ordinance also provides for a deposit of \$2,500 to guarantee payment of bets. The council did not act on the ordinance.

At the suggestion of Councilman Joseph P. Smith, Mayor Fred Rowland appointed a committee consisting of Councilman Plummer, Mr. Smith, Mr. Blodgett (Please Turn to Page 9, Col. 4)

### Loeb Slayer Pleads Not Guilty

JOLIET, Ill., Feb. 25. (AP)—James Day, 21-year-old prison inmate, pleaded innocent today to an indictment charging him with murdering Richard Loeb, 1924 "thrill" slayer of Bobby Franks of Chicago.

Day was arraigned before Circuit Judge Claude N. Saum, who set the trial for March 9. Day's attorneys indicated Day would plead self defense in killing Loeb who with Nathan Leopold was serving sentences of 99 years and life for the kidnapping and killing of the Franks boy.

Sabotage Aboard Warship Probed

LONDON, Feb. 25. (AP)—The British admiralty announced today detection of the fourth case of suspected sabotage this winter aboard Britain's warships.

The destroyer Velox, being refitted at the Chatham dockyard, was the latest vessel affected by alleged sabotage. Its mine-releasing apparatus was understood to have been damaged. The admiralty said the incident was being investigated officially.

have formed, and still form, so much of the substance of American history and practice?" he asked.

"Surely no intelligent American believes that European history should be deliberately falsified by omitting all references to Communism, and by teaching, as one school persecutor has urged, 'only the geographical facts of Russia.' "Such perversion of instruction in the schools is more than a betrayal of knowledge and truth. It assumes that knowledge and truth are of no importance, that a nation can live by lies and deception."

# CHARGE NEW DEAL 'REIGN OF TERROR' IN OUSTING OF HAGOOD

## SENATE TOLD OF 'POLITICS' BY GENERAL

Seventh Corps Leader Has Own 'Candidate' Declares Robinson

WASHINGTON, Feb. 25. (AP)—A charge that Maj. Gen. Frank C. Bolles, commander of the seventh corps area at Omaha, Neb., was "actively engaging" in politics developed today in senate debate on the suspension from duty of Maj. Gen. Johnson Hagood as eighth corps area commander.

Republicans accused the New Deal of "reign of terror" while Democrats split on the order relieving the army's third ranking general officer from command.

Senator Hastings (R., Del.) had termed the action an "illustration of terrorism in government" when Senator Robinson, the Democratic leader, hurled the charge about Bolles. He coupled it with an accusation that Senator Hastings (R., Del.) was "instrumental" in sending Brig. Gen. William Mitchell, former air corps chief, "to his grave without the restitution due him."

**Asserts Violation**

Robinson asserted Hagood "violated" the army code in taking part in politics by criticizing the administrative agency.

"And there is at least one more corps commander," he shouted, "who is actively engaged in politics, who has a candidate of his own for the Presidency and boasts he is making efforts in his behalf." Robinson named Bolles but not the candidate.

Turning to the Mitchell case, Robinson declared Hastings had held up action for a year on a bill the majority leader had introduced to "remove the stain" from the record of General Mitchell, who was court-martialed for his outspoken denunciation of army leaders he held responsible for lack of air corps development.

Hagood, in what already has threatened to become a political issue, was ordered home "at direction of the President" to "await orders" shortly after telling a house subcommittee that Works Progress administration funds were "stage money."

Some in the capital believed Hagood might be kept on the inactive list until he reached retirement age of 64 next year.

**Reign Of Terror**

Declaring that he would fight the war department "to a finish" for what he called an "infamous, dirty, damnable and inexcusable outrage," Representative Blanton (D., Tex.) demanded the impeachment of Secretary Dern, General Malin Craig, chief of staff, and Assistant War Secretary Harry H. Woodring.

While army officers said Hagood's removal was "routine," Representative Lehibach (R., N. J.) charged the general was a victim of "the reign of terror" because he "said something which might injure candidate Roosevelt."

## BENEFIT PARTIES FOR DEAF PLANNED; KIWANIS GIVE \$300

The Homophenou club of Santa Ana and the Orange county league for the hard of hearing are planning to give a series of benefit parties to enlist aid for those in the county afflicted with deafness. It was announced today by Ruth Bartlett, instructor in lip reading in the adult education department.

The two organizations, Miss Bartlett said, are greatly interested in a recent announcement of the Kiwanis club of Santa Ana that the sum of \$300 has been voted by Kiwanians toward the purchase of an audiometer, an instrument for testing the hearing.

The two clubs plan to solicit aid of the general public in helping unfortunates of this kind in Orange county, especially children. It has been reasonably proven, Miss Bartlett said, that 90 per cent of all hearing loss in adult life could have been prevented if slight losses in aural perception had been corrected in childhood.

## SERVICE CLUBS TO HEAR FORMER ETHIOPIA RESIDENT

## LOWE STORE TO BE REMODELED

Work on remodeling the show windows of the Hugh J. Lowe clothing company at a cost of \$5000 will be started at once, it was announced today. Contract for the job has been let to R. C. McMillan, Santa Ana.

When completed, Mr. Lowe said, the store front will be one of the finest in Southern California, and because of its large size will make as fine an appearance as any in the larger cities.

Interior changes costing approximately \$2000 also are to be made in the building, Mr. Lowe said, bringing the entire cost of the improvements to around the \$7000 mark. All labor used will be local.

Interior lighting in the shop will be increased, and modern fixtures installed. A further change, that will double the number of dressing rooms, also will be made.

The store will remain open for business, Mr. Lowe said. An easy entrance will be left for the public, and a suit sale now in progress will be continued.

## Brick Dust

Here and There With  
The Journal's  
Rambling County Editor

By T. N. (BRICK) GAINES

MAW NATURE is plenty wise. Take, for instance, garlic. A rose by any other name, if it had the potency of our vegetable friend, would be buried deeply, and forgotten.

Which, in case you're interested, is just what Old Dame Nature has done—ever noticed it? Garlic, like its weak-sister, pal, the onion, is found many inches beneath the soil. Safely first, that's one of the laws (ord. 126, sec. 3391) of nature.

Turning to our modern and up-to-date reference library, we find in "The New National Webster Dictionary for School, Home and Office, Self Pronouncing," the following sarcastic explanation of our subject:

"A bulbous-rooted plant of the onion family, with a strong pungent taste and unpleasant smell."

Those dictionary fella's must've been around garlic a little themselves, for that definition, what? Anyway, we were just leading up to something, and, if you've lasted this far, string along.

You know, as well as we do, that schoolteachers are law-abiding, self-respecting folk. The law-abiding part of it—that's what we're taking up right now. We've heard of a group of teachers up in Fullerton who no doubt are perfectly willing to see the law of nature, as far as burying garlic is concerned, strictly enforced.

Because of the epidemic of youngsters wearing, carrying, or otherwise transporting the odoriferous plant to school with them.

Enthusiasm, we're told, is a wonderful thing, if properly controlled. But, from reports coming in from Fullerton, enthusiasm, as far as garlic is concerned, broke loose from the hitching post and reigned unconfined. In the high school, too! At least, that's what our friends tell us.

Some boys, we heard, were even sent to their homes because of the overpowering influence of the bulbous-rooted plant with the strong, pungent taste and unpleasant smell. It was, according to reports, rubbed on desks in classrooms, as well as in hair and on the backs of necks.

Tch, tch! Isn't that carrying agriculture a little too far in our schools?

Hope the Midway City fire department doesn't think we're picking on it, but this is too good to keep.

Seems that they received their new fire truck Friday evening. State Forester Joe Sherman brought the new truck into the new fire hall, and the fire boys gathered around to look over their pride and joy.

They had a nice meeting, and discussed fires, as firemen will, and finally, at a late hour, almost everyone went home.

Everybody, that is, except Joe Sherman and Chet Campbell, the assistant chief.

They were just about to wrap up the new wagon for the night when, believe it or not, a fire call came in!

Somebody's garage was afire at Barber City!

And so Joe and Chet climbed aboard and roared over to Barber City and put out the fire. And the rest of the department didn't get a chance to ride on the new machine on its initial run.

Which, anyone'll admit, was too bad.

Somewhere in the paper today you should read that Costa Mesans are seeking a sheriff's substitution for their district to help 'em control speeding through the community.

Personally, we think they should just put up a sign telling the world that Judge Dodge lives there. That should make all speeders stop and think. Or at least, slow down.

They want three or four men, to be on duty all the time in their district. Protection for school children is the idea. They're getting a new fire engine to protect their homes, have scared away low-flying airplanes, and now think that it's time to do something for the kids.

When they call on the sheriff, we hope he's feeling kind-hearted.

# EXTENSION OF FISH PRESERVE TO SAN DIEGO IS SOUGHT

## COAST GROUP ASKED FOR ADVICE

Residents to South May Ask Similar Law for County Waters

NEWPORT-BALBOA.—Initial steps in a plan for extending the Orange county fishing preserve to the south boundary of San Diego county have been taken by residents there, it was reported here today, when a request was received by the Coast association to send representatives to a meeting in Oceanside to discuss the matter.

Residents of the southern county realize the value of such a law and wish to protect their coast line as the Orange county coast is now protected, it was reported. The meeting, called for March 11, will be held for the purpose of starting a move for either a like preserve or for joining in the local plan, according to Coast association members.

A large delegation from the local association is expected to attend the Oceanside meeting to discuss the matter and explain the operation and benefits of the Orange county plan.

Increased interest has been indicated from the San Diego county group with reports of arrest of 25 purse-seiners who were charged by state game wardens with taking sardines within the fish preserve. Trial of the fishermen is pending decision on a test case, it was reported.

The Silver Acres storekeeper was born in leap year, on Feb. 29, and explains that his anniversaries

## BEAN GROWERS TO IRRIGATE

HUNTINGTON BEACH.—Bean growers on the large ranches in the Smeitzer bean-growing district of approximately 7000 acres are irrigating, even though heavy rains have been falling.

Almost seven inches of rain have fallen to date, which is nearly half the amount of the rainfall at this time one year ago. Ranchers claim that the ground is wet down about one foot, which is only one-third the required amount.

It is necessary for bean growers of large ranches to irrigate now to be ready in time for spring planting. With two pumps operating constantly for two months on a 300-acre ranch, it will require six weeks or two months to have the land irrigated in time, according to ranchers.

Last year it was not necessary for the ranchers to irrigate. The crops were good and the price at \$6.85 per hundred was higher than at any time in four years.

Ground is in excellent condition for a good pepper year, according to M. Sasaki, head of the Chili Pepper Evaporator Corporation. He will plant 1000 acres to chili peppers this year, which will be about 300 acres more than other years.

## ASK VOTE ON PAVILION AT H. B.

April 14 Date Will Be Set for Ballot on Beach Project

HUNTINGTON BEACH.—Voters in Huntington Beach will have an opportunity to approve or turn down plans for a \$45,000 beach pavilion and recreation hall at the municipal elections in April, it was decided at a meeting of the city council here last night.

On April 14, a proposition will be held on the ballot, asking for an expression of opinion regarding the project. Residents will vote on whether the city shall exceed the 5 per cent limitation on budget increase for the year. Some time ago the state board of equalization frowned upon a request by the city to extend their 5 per cent increase for the purpose.

According to plans proposed last night, the city would spend not more than \$25,000 for the huge recreation hall and convention center, which would be 55 per cent of total cost of the work. WPA would be asked to contribute the remaining 45 per cent, it was decided.

Official action on the proposal came when City Attorney Ray Overacker was instructed to prepare a resolution, which will be presented at the next meeting of the council.

## Column Left

Picking Up Loose Ends

The Honor Roll  
Padres Again

When a guy devotes Friday's column to horse racing, takes Saturday off and then bobs up on Monday with another opus of the ponies, he finds himself with a lot of unfinished business on hand when Tuesday rolls around.

So, let's polish it off.

One more paragraph about the horses and then we'll drift on to more varied subjects. There are 23 Santa Anas who are as tops in race selections as Top Row was in winning. There may be more than the 24 we know about, but this group—most of them at least—have gone on written record: Top Row was their choice on Saturday and we can prove it. So, begging the pardon of all these good folks, we give you the honor roll of the turf: (If your name isn't there, you didn't write Top Row on a little piece of paper and drop it in a little tin box at a certain North Main street address.)

L. D. Reynolds, E. C. Schultz, Gene Kelly, Mrs. Goldie O'Hair, E. L. Hamill, W. O. Householder, T. H. Lacy, F. P. Shattuck, James E. Lambert, E. G. Chandler, Martha Koojols, Vera Foster, Vern Spoelch, Eva Hill, Rudy Osuna, R. Powell, William Hunt, Ted Stephenson, Frank Fiske, A. L. Aikin, Mrs. J. A. Strange, Bill Brown and Noel Berry, who becomes a double winner for having selected Azucar last year.

Racing, but not horses: Anaheim's Ray Pixley, who has ambitions to drive in the 500-mile race at Indianapolis this coming May, may pilot the famous "Catfish" car, belonging to E. G. Chandler. Several world's records have been established in this stream-lined monster of the speedways and the reports are that if Pixley can find a sponsor he will be throttle-thumping in the Memorial day classic over the treacherous brick floor at Indianapolis.

Fullerton's Arky Vaughan has hung up a batting mark for the best of 'em to shoot at. The quiet kid who led both major leagues in plate power last season has never hit below the .300 mark in organized baseball. In two years in the minors and three with the Pittsburgh Pirates his mark has gone steadily upward until last year he sailed under the wire with a .385 mark. This year he may be one of the few major leaguers to poke out a few .400 average.

The Padres controversy has broken out again. This time in the column of able John Henry, junior college sports editor. John struck home when he said that the fuss was started by our own Paul Wright back in 1930. On October 1, John recalls, Paul first used the word as a substitute for "Dons" in a headline. Even so, substituting "Padres" for "Dons" is as incongruous now as it was then, but John allows a headline on his page this week to use "Padres."

John has the right idea, though. He writes: "At least the word 'Padres' is distinctive as the name of a college and there is an essential not to be overlooked in choosing and upholding a name."

Short stuff: Remember Bud Holzhauer? Well, the Long Beach "white hope" is doing nicely, thank you. Tonight he tackles Buddy Beck, a head upstart in eight pro starts, as the special event to the Freddie Steele-Young Struhley battle at the Los Angeles Olympic auditorium. With two consecutive fourth-round knockouts to his credit, Holzhauer is looking for a 1000 contest for the best ex-amateur performance. Holzhauer will be remembered here for ducking a stack of fights with Fullerton's Lupe Le Mon.

Wanted: Remedy for the tug tug comes every year at this time, i. e., to slip out the door and run, not walk, to the nearest ball park where spring training is under way.

## Racing Notes

By the Associated Press

Eddie Arcaro, who rode Fred Alger, Jr., Azucar to fourth money in the Santa Anita handicap Saturday, was the first jockey to return to Florida. The Newport, Ky., pilot arrived in time to get into action yesterday.

"It was pretty rough," said Arcaro, "but I was hardly bothered at all. Time Supply got the worst of it. Had the track been fast instead of drying out, I think my mount might have won it for the second straight year."

Wayne Wright, who rode Top Row to victory, is expected back at Hialeah Park this week.

The dependability of the electric "eye" which has been used at Hialeah Park to assist the judges in placing the horses is a matter of dispute. In nearly every case the "eye" has given the race to the outside horse, directly opposite of the placing according to the judges.

When popping tests show the corn is "right," it should be placed in a closed container.

## VETO WOMEN PROS

A PROPOSAL to make the British women's golf championship an open event in order that lady pros may compete has been scotched again. It was overwhelmingly defeated by the Ladies Golf Union over the protest of the sponsoring Surrey delegation, which will continue the campaign.

## RETURN GAME WITH BRUIN NINE DUE

Clyde Cook's Preps to Battle L. B. at Annex Diamond Tomorrow

Two non-conference stands will be made by Santa Ana High school in baseball this week—at Long Beach tomorrow afternoon in a return game with Woodrow Wilson, and at Whittier Friday with the Cardinal preps.

Jimmy Wilkins, who toiled five innings of the 1936 inaugural which Clyde Cook's charges annexed from Woodrow Wilson, 14-5, here Friday, will draw one of the next two assignments. He probably will start at Long Beach tomorrow, although there is possibility the Saint coach will give the nod to Lewis Olivias, another right-hander.

The game will be played at Annex park at 2:45 o'clock.

Even Mr. Cook himself cannot name the first nine that will represent Santa Ana in the Coast league beginning late next month. He knows his catcher will be Duane Teel, Wilkins will be his regular gunner, Harold Jesse is a permanent fixture at third base, Art Nieblas and Norman Wyckoff are virtually certain outfield berths.

The other four positions—shortstop, second and first base, and an outfield spot—are wide open, with Erwin Youel, Harvey Hemphill, Joe Kadowaki and Ray O'Campo looming as present first-string choices. Teel may not play tomorrow because of a leg infection.

## 'BIG TRAIN JR.' NOT READY

WASHINGTON, Feb. 25. (AP)—A 20-year-old rookie hurler, going through his paces before one of baseball's greatest pitchers, wound up, flung his body into the pitch and threw.

"Son," said the "Big Train" as Walter Johnson, Jr., turned around, "you've got a strong arm, a good fast ball and a fair curve, but you're some years away from big league baseball."

The six-foot three-inch boy smiled.

"You're right, I do need lots more experience," he said as he walked over to sit beside his father on a pile of logs.

The scene was the "Big Train's" farm at nearby Germantown, Md. Walter, Jr., who travels south Friday for a trial with the Philadelphia Athletics, had gone from his Washington home to throw a few and talk things over.

"He needs a couple of years to develop, to get himself ready to pitch," the old fireball king explained to the youngster's friends.

Walter thinks the 195-pound recruit is "right" for a small class league, one where the pace isn't so fast he has to throw his arm out.

"He's got a good arm, yes a very good arm, but he needs the experience one can get only in a baseball game," Johnson said. "He's the type that comes along fast and in two years he will be developed and will know whether he's a real pitcher or not."

Walter, Jr., will have to work on his curve ball for, his father says, he hasn't the speed that enabled the "Big Train" to throw past batsmen all day.

## MIDGET RACING BLOCKED HERE

Proposed midget automobile racing in the municipal bowl is out. The city council last night refused to grant a permit for use of the bowl for this purpose and indicated it will entertain unfavorably any similar applications. Last night's request was filed by A. E. Lind, Los Angeles operator.

Action was taken after a committee headed by W. H. Spurgeon urged that staging of such races was a nuisance to surrounding residents and also caused considerable damage to the turf of the football field in the bowl.

In referring to the application, Councilman Ernest Layton called attention to last year's \$1000 income to the city from a similar project. Councilman Joseph Smith said it would cost as much to repair the turf after racing had been staged as the city would get in revenue.

A. J. McFadden told the council it was impossible to operate the bowl as a football field and race track too, and that he hoped the city would maintain it for amateur sport and not for the benefit of outside promoters.

## Rough Guys Save Wrestling Show

By FRANK ROGERS  
Journal Sports Editor

Two wrongs may not make a right, but two toughnecks can go a long way towards making a wrestling show.

Sam Sampson's faithful customers at last night's Orange County Athletic club hug and tug exhibition know this observation is true, because a couple of rugged boys with few if any manners topped the evening with a madcap performance.

It was the second half of a double main event—Irish Jerry Monahan, deep-dyed villain, and Ahmet Youssof, a regular rotter of a guy, who sparkplugged the punch parade in its dying moments. Monahan won in two straight falls, but that is beside the issue; customers and wrestlers alike had more fun than they'd had all evening when Monahan, the old Turkey up in the spittoon rope, jumped on him, strangled him with a towel and generally handed Ahmet the triple-layered beating that was long overdue Mr. Youssof.

Jerry was lucky. Jerry was a very lucky guy to win the first fall—a really spectacular affair that was timed in 11 mins. 50 secs. It went some-

thing like this: Jerry was holding onto the ropes grimly with both hands. Youssof was trying with all his locomotive strength to persuade him to let go; he was in back of Monahan tugging like anything. Suddenly Jerry felt the pressure of all this influence, dropped his death-grip on the ropes. Youssof went down—Monahan on top of him. Even Referee Dick Rutherford was leery of inventing a name for that one; if it must be named—call it an accidental backward body slam.

The second fall lasted quickly 31 seconds. It was Monahan all the way—a swift series of elbow smashes and a body press. That was all.

Popular Bill Sledge was saved from defeat at the hands of Charlie Santen in the other main event. Trailing badly in the wild-man tactics that had followed about 10 minutes of clean, scientific going, Sledge ducked one of Santen's flying tackles. Santen sailed into the press box, bounced onto the laps of some Anaheim scribes from whence he tumbled to the cold, unsympathetic floor.

Santen Injured

Unable to re-enter the ring because the fatal 20-count had been tolled over him, Santen lost the

fail. He was in no condition to go to work at the end of the rest period, but was game and stumbled from his corner at the bell. But after a few faltering steps he sank to the floor and Sledge was named winner. Santen's back was badly bruised.

Santen and Sledge have worked their respective ways up from the preliminary spots here, Sledge showing the more color of the two right along. But last night Santen had most of the flash and except for the scientific moments was far ahead of "Dixie Bill."

"Gentleman Joe" Varga and Louie Mayo, Mexican champion, wriggled to a draw—about which no more need be said.

Jack McCarthy, 250-pound cry-baby, won a lucky tumble from Agile A. Baffert. Evidently a reformed hitch-hiker, McCarthy used his thumbs on A's eyes most of the time, won the bout when one of Baffert's flying tackles miscarried. McCarthy was all braced and Al might just as gainfully have banged his head into a stone wall. Baffert folded like an accordion, made a noise like an agitated tombstone and went "boom" like a kettle drum. The orchestration was over in 16 mins. 58 secs.

MIAMI BEACH, Fla., Feb. 25. (AP)—Mrs. James Braddock saved her champion to retire from the ring "after he beats" Joe Louis.

There's no doubt in the mind of this pretty 29-year-old mother the outcome of a match between the two fighters, for she believes her Jim is the superior of any man now wearing gloves.

First, however, Braddock must make his fortune, she said here today while vacationing with their three children, James Jay, Jr., 5; Howard, 4 and Rose Marie, 2. Then—and she is looking forward to that time he can leave the ring and settle down in business. She would have him pick a career along a kindred line, such as running a big gymnasium.

# MAJOR SHAKEUP LOOMS IN NIGHTBALL

## RETURN GAME WITH BRUIN NINE DUE

Clyde Cook's Preps to Battle L. B. at Annex Diamond Tomorrow

Two non-conference stands will be made by Santa Ana High school in baseball this week—at Long Beach tomorrow afternoon in a return game with Woodrow Wilson, and at Whittier Friday with the Cardinal preps.

Jimmy Wilkins, who toiled five innings of the 1936 inaugural which Clyde Cook's charges annexed from Woodrow Wilson, 14-5, here Friday, will draw one of the next two assignments. He probably will start at Long Beach tomorrow, although there is possibility the Saint coach will give the nod to Lewis Olivias, another right-hander.

The game will be played at Annex park at 2:45 o'clock.

Even Mr. Cook himself cannot name the first nine that will represent Santa Ana in the Coast league beginning late next month. He knows his catcher will be Duane Teel, Wilkins will be his regular gunner, Harold Jesse is a permanent fixture at third base, Art Nieblas and Norman Wyckoff are virtually certain outfield berths.

The other four positions—shortstop, second and first base, and an outfield spot—are wide open, with Erwin Youel, Harvey Hemphill, Joe Kadowaki and Ray O'Campo looming as present first-string choices. Teel may not play tomorrow because of a leg infection.

## 'BIG TRAIN JR.' NOT READY

WASHINGTON, Feb. 25. (AP)—A 20-year-old rookie hurler, going through his paces before one of baseball's greatest pitchers, wound up, flung his body into the pitch and threw.

"Son," said the "Big Train" as Walter Johnson, Jr., turned around, "you've got a strong arm, a good fast ball and a fair curve, but you're some years away from big league baseball."

The six-foot three-inch boy smiled.

"You're right, I do need lots more experience," he said as he walked over to sit beside his father on a pile of logs.

The scene was the "Big Train's" farm at nearby Germantown, Md. Walter, Jr., who travels south Friday for a trial with the Philadelphia Athletics, had gone from his Washington home to throw a few and talk things over.

"He needs a couple of years to develop, to get himself ready to pitch," the old fireball king explained to the youngster's friends.

Walter thinks the 195-pound recruit is "right" for a small class league, one where the pace isn't so fast he has to throw his arm out.

"He's got a good arm, yes a very good arm, but he needs the experience one can get only in a baseball game," Johnson said. "He's the type that comes along fast and in two years he will be developed and will know whether he's a real pitcher or not."

Walter, Jr., will have to work on his curve ball for, his father says, he hasn't the speed that enabled the "Big Train" to throw past batsmen all day.

## MIDGET RACING BLOCKED HERE

Proposed midget automobile racing in the municipal bowl is out. The city council last night refused to grant a permit for use of the bowl for this purpose and indicated it will entertain unfavorably any similar applications. Last night's request was filed by A. E. Lind, Los Angeles operator.

Action was taken after a committee headed by W. H. Spurgeon urged that staging of such races was a nuisance to surrounding residents and also caused considerable damage to the turf of the football field in the bowl.

In referring to the application, Councilman Ernest Layton called attention to last year's \$1000 income to the city from a similar project. Councilman Joseph Smith said it would cost as much to repair the turf after racing had been staged as the city would get in revenue.

A. J. McFadden told the council it was impossible to operate the bowl as a football field and race track too, and that he hoped the city would maintain it for amateur sport and not for the benefit of outside promoters.

## Rough Guys Save Wrestling Show

By FRANK ROGERS  
Journal Sports Editor

Two wrongs may not make a right, but two toughnecks can go a long way towards making a wrestling show.

Sam Sampson's faithful customers at last night's Orange County Athletic club hug and tug exhibition know this observation is true, because a couple of rugged boys with few if any manners topped the evening with a madcap performance.

It was the second half of a double main event—Irish Jerry Monahan, deep-dyed villain, and Ahmet Youssof, a regular rotter of a guy, who sparkplugged the punch parade in its dying moments. Monahan won in two straight falls, but that is beside the issue; customers and wrestlers alike had more fun than they'd had all evening when Monahan, the old Turkey up in the spittoon rope, jumped on him, strangled him with a towel and generally handed Ahmet the triple-layered beating that was long overdue Mr. Youssof.

Jerry was lucky. Jerry was a very lucky guy to win the first fall—a really spectacular affair that was timed in 11 mins. 50 secs. It went some-

thing like this: Jerry was holding onto the ropes grimly with both hands. Youssof was trying with all his locomotive strength to persuade him to let go; he was in back of Monahan tugging like anything. Suddenly Jerry felt the pressure of all this influence, dropped his death-grip on the ropes. Youssof went down—Monahan on top of him. Even Referee Dick Rutherford was leery of inventing a name for that one; if it must be named—call it an accidental backward body slam.

The second fall lasted quickly 31 seconds. It was Monahan all the way—a swift series of elbow smashes and a body press. That was all.

Popular Bill Sledge was saved from defeat at the hands of Charlie Santen in the other main event. Trailing badly in the wild-man tactics that had followed about 10 minutes of clean, scientific going, Sledge ducked one of Santen's flying tackles. Santen sailed into the press box, bounced onto the laps of some Anaheim scribes from whence he tumbled to the cold, unsympathetic floor.

Santen Injured

Unable to re-enter the ring because the fatal 20-count had been tolled over him, Santen lost the

fail. He was in no condition to go to work at the end of the rest period, but was game and stumbled from his corner at the bell. But after a few faltering steps he sank to the floor and Sledge was named winner. Santen's back was badly bruised.

Santen and Sledge have worked their respective ways up from the preliminary spots here, Sledge showing the more color of the two right along. But last night Santen had most of the flash and except for the scientific moments was far ahead of "Dixie Bill."

"Gentleman Joe" Varga and Louie Mayo, Mexican champion, wriggled to a draw—about which no more need be said.

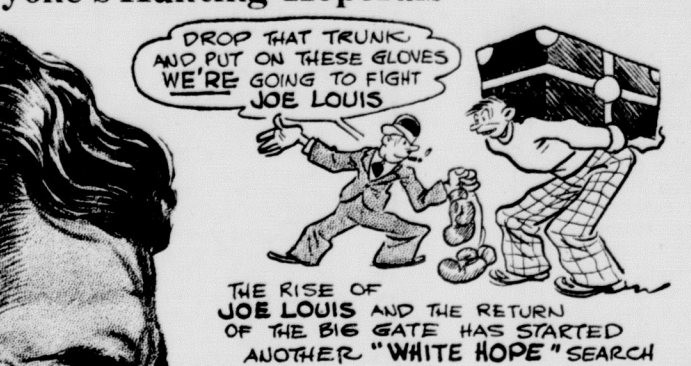

Jack McCarthy, 250-pound cry-baby, won a lucky tumble from Agile A. Baffert. Evidently a reformed hitch-hiker, McCarthy used his thumbs on A's eyes most of the time, won the bout when one of Baffert's flying tackles miscarried. McCarthy was all braced and Al might just as gainfully have banged his head into a stone wall. Baffert folded like an accordion, made a noise like an agitated tombstone and went "boom" like a kettle drum. The orchestration was over in 16 mins. 58 secs.

MIAMI BEACH, Fla., Feb. 25. (AP)—Mrs. James Braddock saved her champion to retire from the ring "after he beats" Joe Louis.

There's no doubt in the mind of this pretty 29-year-old mother the outcome of a match between the two fighters, for she believes her Jim is the superior of any man now wearing gloves.

First, however, Braddock must make his fortune, she said here today while vacationing with their three children, James Jay, Jr., 5; Howard, 4 and Rose Marie, 2. ## AVOCADO MEN TO MEET IN LA HABRA

Institute March 13 to Draw Growers From All Southland

Avocado growers from throughout Southern California will meet in La Habra on March 13, when the seventh annual Southern California avocado growers institute will be held.

H. H. Gardner, Villa Park, chairman of the farm avocado department; H. E. Marsh, La Habra, chairman of the production committee, and Farm Advisor Harold Wahlberg constitute the Orange county committee in charge of arrangements. A similar committee from Los Angeles county is cooperating in staging the school.

The sessions will be held at the Washington Grammar school auditorium, beginning at 9:30 a. m., according to announcement from the farm advisor's office.

Discussions will be presented by authoritative speakers on avocado pruning, soil and irrigation problems, erosion control in hillside orchards, cost of production, motive leaf control and windbreaks.

It is anticipated that the attendance this year will be around 500, as the interest in the institute programs has been increasing each year, Ray Frantz, La Habra grower and member of the local committee on arrangements, said today.

An invitation is being extended to all interested in the production and use of avocados.

## GET CARLOAD OF REFRIGERATORS

There has been such a remarkable public acceptance of the Norge refrigerator in Santa Ana and Orange county that the J. C. Horton Furniture Co. has just received another carload of them, according to George Horton, manager of the refrigeration department.

Purchasers report that any doubt they may have had as to the efficiency of the Norge has been removed by its perfect performance. It provides refrigeration at a low cost and maintains constant low temperatures regardless of how hot one's kitchen may be, said Mr. Horton. This equitable low temperature enables one to save money on food purchases, prevents food spoilage and permits the use of leftovers. Norge owners report that rotator refrigeration saves up to \$11 a month on household expenses, more than equal the monthly payments. In this respect a Norge makes its own monthly payments, said Mr. Horton.

Mr. Horton is particularly well pleased by the performance of the Norge, and says the carload purchases by the Horton Furniture Co. indicate the satisfaction of customers.

## ORANGE QUOTA IS 225 CARS

SACRAMENTO, Feb. 25. (P)—A. A. Brock, director of agriculture, has fixed a quota of 225 carloads of navel and miscellaneous oranges for shipment from Southern California during the week of Feb. 23-29 under the state AAA.

Rains interfered with the harvest of Valencia oranges, said Brock, and many shippers failed to use up last week's quota on that variety. The growers' advisory committee did not recommend any additional quotas for Valencias during the current week.

## S. A. SYMPHONY TO PLAY SOON

## Impatience and Irritability Detract from Charming Personality

By FRANCES TIPTON LONG  
Noted Authority on Charm and Personality

Modern life has done much to breed impatience and irritability and has destroyed much of that poise and consideration which build true charm. "The race is to the swift," we are told, and in our efforts to be swift we develop qualities of personality that are destructive to charm.

Of course, if impatience speeds up your activities, either mental or physical, or both, it may be a real virtue. But if it makes you and everyone around you miserable and discontented, then it would be well to overcome it.

There are a great many impatient people in the world; impatient because they are not promoted more frequently, impatient because they do not get rich faster, impatient because of this and because of that.

Impatience and happiness are strangers. Irritability and charm are enemies.

What Do You Want?

All of us seek something in life. Some want happiness. Others fame. Some people want wealth, or power, or influence. And, in seeking to win the things we desire, we find people entering business, going in for politics, or

Frank my patience

This handwriting reveals generosity, enthusiasm, energy, originality and sympathy. But it also shows impatience, impulsiveness, carelessness and a lack of tact and diplomacy.

Christmas Greetings

Sympathy and understanding is shown by this script; a poised, patient, calm, gracious person, one who is tactful, sincere and considerate of the rights and feelings of others. The appeal of graciousness is indicated.

taking up a professional career. Some interest themselves in cultural activities such as writing, painting and so on. Another group seeks its goal in religion, and many find their greatest success in marriage.

No matter what you seek in life, and no matter what road you travel in attaining your goal, your greatest asset is the charm of your personality, for the charming personality always finds friends, admiration, love and respect.

The personality that repels instead of attracts, that arouses hate and resentment instead of respect, admiration and love, that creates enemies instead of friends, is a personality that has little chance of success and practically none of happiness.

What About Your Future?

Impatience alone is not a destructive quality. Under proper control it may lead to vivacity, piquancy or some of the other more animated types of appeal. Too often it is combined with irritability, and then it becomes a force detracting from charm.

Your personality can be moulded and built to fit your desires much as the potter moulds and shapes the clay for the particular vessel he wishes to build. The person who builds tact, diplomacy, patience, poise, graciousness and consideration into his, or her, personality and who casts out impatience, irritability, carelessness and indiscretion, is doing the most important thing necessary to win—creating charm.

Through your personality you can be the master of your own destiny, create your own future. You can win success, love and happiness or you can achieve failure, hate and discontent. It's entirely up to you.

Your handwriting shows the traits of personality you possess today, reveals how high you have climbed up the ladder of charm. By knowing definitely both your good and bad points you can improve, change or eliminate, thus increasing your charm and doubling your chances of happiness and success, of winning the things you seek from life.

**RAINS INSURE SUCCESSFUL SEASON FOR TRUCK, CITRUS CROPS****NEED NOW IS  
FOR CLEAR  
WEATHER****Recent Storm Equal  
to One Irrigation  
for Oranges**

Growers of both truck and citrus crops in Orange county agree that recent heavy rains, following on the heels of a prolonged drought, were the herald of a successful season. Farm Advisor Harold Wahlberg said today:

"Vegetable growing districts particularly were anxious for rain, and now await clearing weather and a warm spell to break up the soaked soil and attack fast growing weeds, he said.

"Some of the bean growers in the Talbert and Wintersburg vicinity," Mr. Wahlberg said, "are still irrigating, as that section appeared to be a 'dry' spot throughout the recent rainfall.

"Most of these growers are putting on water in an attempt to make the upper and lower water levels meet, which in general means a penetration of about six to eight feet in sandy loam soil. The rains were equal to a penetration of about three feet in most areas."

Rains have brightened virtually all truck crop prospects, however, he said, as the downpour was enough to start crops on a normal year despite the lengthy dry spell.

**Ground Rot Seen**

For the citrus crops, he said, the rain was the equivalent of a good irrigation, and should carry the groves through until the early spring irrigation season. There is evidence of some ground rot in certain sections of the county, due to standing water, but this is a minor thing, confined to navel oranges.

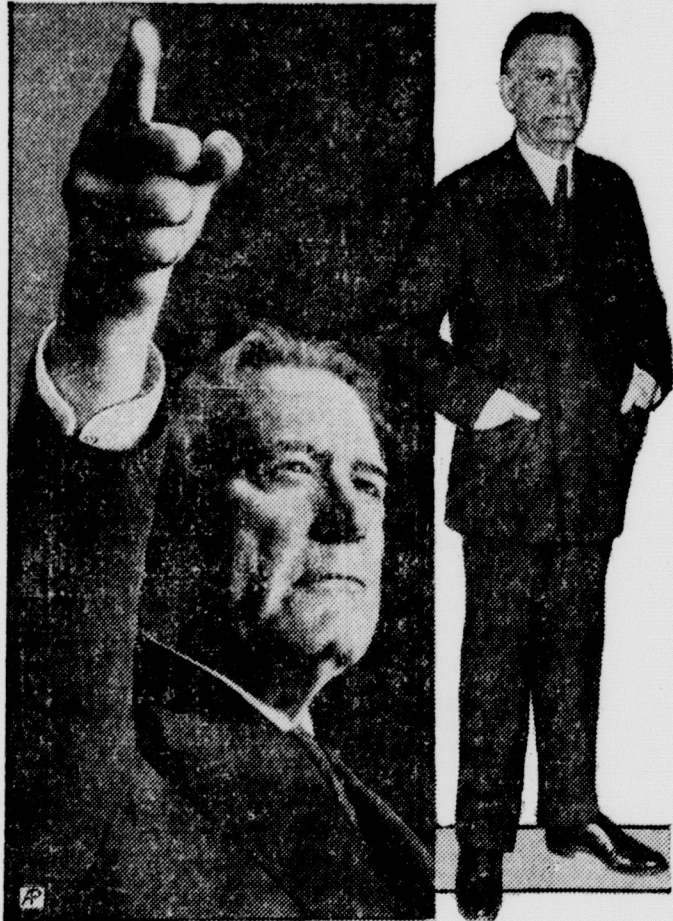

The rains were not sufficient to carry over the walnut groves, he stated, unless a heavy storm falls in the next few days. Many growers are being forced to continue irrigation in the deeper rooted orchards.

**What Was Needed**

Avocados and virtually all fruit crops were affected in much the same beneficial manner, from the downpour, he said.

With the 1936 crop of cannery tomatoes in seed beds, most packers have contracted sufficient acreage to satisfy requirements under normal growing conditions, it was pointed out.

In the final analysis, he said, although the rainfall did not bring gauges throughout the county up to normal, it was what was needed to give the county agricultural interests the start on a "good" year. The future is dependent on further rain, which if normal will carry Orange county crops through to a banner fulfillment.

**Borah Stands on Record in  
Race for G.O.P. Nomination**

Although he never has deserted the Republican banner, Senator William E. Borah has distinguished his long years in Washington by supporting candidates and issues as he himself saw fit.

The political backgrounds of the men most prominently mentioned for the Republican presidential nomination are discussed in a series of six daily articles, of which this is the first.

By KIRKE SIMPSON

WASHINGTON, Feb. 25. (AP)—Wherever men talk of possibilities for the Republican nomination, he who could have been vice president is never ignored.

He is Senator William E. Borah of Idaho, rounding out as dean of the senate 30 unbroken and spectacularly independent years of service.

Down those tramping decades Borah has heard his name called again and again for highest party honors, only to have the call die away against the strangely irregular pattern of his party regularity. At 71, when most men in public life see their careers closing, he hears that call again—louder, more insistent than ever before.

For the first time he has assented to use of his name in party primaries outside his own state—has said, even, that he expects to be the presidential nominee. Yet there is no more certainty among his party colleagues that he is actually seeking a nomination than there is as to Herbert Hoover's real intent.

These two are mystery figures. They were closely allied in 1928, with Borah in a vital president-maker role behind Hoover's candidacy; far apart in 1932, with Borah, aloof and silent, contributing perhaps to Hoover's defeat.

Borah, at 71, is a sturdy, ample figure, with seamed and craggy countenance, and disorderly shock of hair that largely defies time's whitening and thinning touch. In senate debate he remains impressive with his virility in thought and speech.

Whether he is named for president or not, he has marched already to fame and influence in the nation, to a place of his own in world affairs.

And it is a strangely lonely way down which he has come, a way of his own choosing. He has been at his best alone, sometimes an irreconcilable rebel against the accepted doctrines of his party; again its ablest campaigner; still again standing in silent, lowering disapproval of party choice or action—but never going to the final point of party desertion.

Backed Theodore Roosevelt So he stood in 1912, a vigorous fighter for the nomination of

**LARGE STOCK  
GIFTS BARED  
BY REPORT****\$100,000,000 Donated  
Since Work Started  
on New Tax Bill**

WASHINGTON, Feb. 25. (AP)—New reports to the securities commission today brought to \$100,000,000 the total of securities gifts made by corporation officers and large stockholders in advance of higher gift taxes that went into effect Jan. 1, 1936.

The reports were made public in a supplemental summary for December and previous months. They showed some \$7,000,000 in gifts in December, and about \$8,000,000 more in preceding months. About \$85,000,000 had been reported previously.

December stood out as the peak month in the flood of gifts which began in early summer when the President and congress began work on the tax program now in effect. Nearly \$30,000,000 was given away in that month.

Among the larger donations in today's reports was one of \$1,500,000 by James Simpson of Chicago, consisting of 99,000 common shares of Marshall Field & Co. common stock. Simpson gave the stock last August.

G. M. Moffett of New York, gave about \$1,150,000 in 15,000 common shares of Corn Products Refining Company, also in August, and Theodore H. Kirk, Winston-Salem, N. C., received \$1,160,000 in 20,200 B common shares of R. J. Reynolds Tobacco Co.

Theodore Roosevelt against President Taft. But when the break came he did not follow Roosevelt into the progressive third party movement.

When President Coolidge was to be nominated, at another Cleveland convention, in 1924, and a Democratic party torn by internal strife made Republican victory certain, Borah was the Coolidge choice for running mate.

He secured the honor would make no permanent peace with party leadership or policies he disapproved.

In spite of this, he was a Coolidge supporter. He would have been vice president, perhaps president long ago, but for that choice. Now Borah again has raised the anti-monopoly standard that the progressives under Roosevelt flaunted in 1912—and under which Borah did not march with them. He demands Republican party liberalization in the 1912 Roosevelt-progressive mold. His candidacy, whatever else it may mean, represents that determination primarily.

**FAVOR CHANGES  
IN LIQUOR LAW**

A constitutional amendment creating a new liquor control board and granting larger powers in liquor matters to cities and counties is favored by city and county representatives who have been studying the matter. Supervisor W. C. Jerome said today. Mr. Jerome attended a legislative committee hearing on the question at Los Angeles Saturday. County supervisors and representatives of the League of Municipalities joined in supporting such a proposal, he said.

A liquor board with staggered terms, and only one new appointment every four years was favored, he explained. The board would be empowered to grant licenses only after applications had been approved by local authorities. Local officials also would be empowered to suspend licenses of offenders pending final action by the board.

Proper policing is more important than revenue, the group agreed. They also believe the state should receive only enough revenue from licenses to finance

# Williamsburg Restoration Told as Feature of Ebell Colonial Program

## Progress on Project Is Reviewed

Tea Table Takes Patriotic Note in Harmony With Washington Motif

Ebell club members were taken to the days of Washington, when customs were of proper decorum, yesterday afternoon when Sidney N. Shurcliff told how the restoration of Williamsburg will memorialize the colonial capital for posterity.

What the architects have done to find material in Southern states and in England to authenticate their plans was explained by the speaker. Slides of the site, from its condition in 1928 to present loveliness were shown by Mr. Shurcliff.

Following the lecture, Mrs. T. E. Stephenson, in ivory taffeta with a black mantilla, and Mrs. Robert Tuthill in a rose model, took their places as colonial ladies at the tea table. The table had been set in patriotic colors with a crystal bowl or rose red camellias, the rare centerpiece. Silver candlesticks held the tapers.

A standing tribute was given by the members in memoriam to Mrs. E. D. Buss, second president of the Santa Ana Ebell club, who died recently in Bakersfield, and to Mrs. Alice Harris, who died last week.

Mrs. Buss was also president of the state federation of women's clubs before her death.

Emphasis for the rest of this week will be placed on making the Day Nursery amateur audition a success. It will be held Thursday, Friday and Saturday nights with different entertainment billed for each program.

Junior Ebell will fet the senior group next Tuesday evening at a special meeting, featuring a talk by Alma Whittaker.

## SANTA ANA GROUP SEES ORANGE SHOW

Carrying coals to Newcastle, a group of Santa Ana and additional friends went to San Bernardino Saturday and viewed the orange show. The easterners were more thrilled at the sight than were the localites, who are literally surrounded by oranges in their hometown.

Enroute to the show, they motored to Palm Springs, where they held luncheon. Prizes in the play went to Mrs. James Dickson and Mrs. Willard Swarthout.

Others present were Mrs. Oscar Carothers, Mrs. Harold Carmanah, Mrs. Clifford Cole, Mrs. I. A. Merrier and Mrs. Harry LeBar.

## Make This Your First Spring Print Says Marian Martin

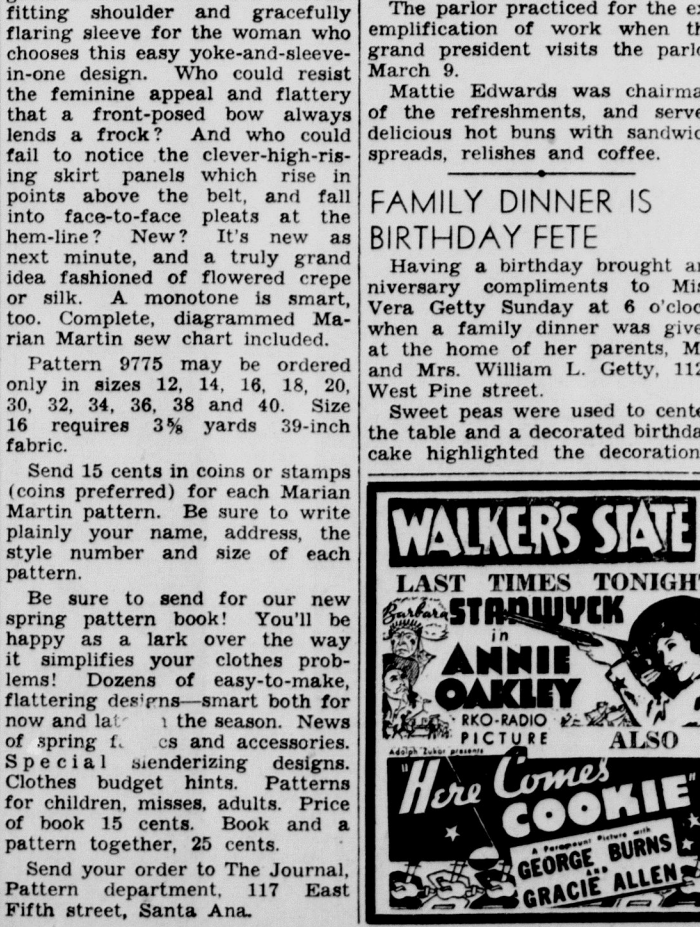

PATTERN 9775  
Spring-like and totally charming is this floral print, which either mother or daughter will find practical, and wear with great success. There's a smooth-fitting shoulder and gracefully flaring sleeve for the woman who chooses this easy yoke-and-sleeve-in-one design. Who could resist the feminine appeal and flattery that a front-pose bow always lends a frock? And who could fail to notice the clever-high-rising skirt panels which rise in points above the belt, and fall into face-to-face pleats at the hem-line? New? It's new as next minute, and a truly grand idea fashioned of flowered crepe or silk. A monotone is smart, too. Complete, diagrammed Marian Martin sew chart included.

Pattern 9775 may be ordered only in sizes 12, 14, 16, 18, 20, 32, 34, 36, 38 and 40. Size 16 requires 3 1/2 yards 39-inch fabric.

Send 15 cents in coins or stamps (coins preferred) for each Marian Martin pattern. Be sure to write plainly your name, address, the style number and size of each pattern.

Be sure to send for our new spring pattern book! You'll be happy as a lark over the way it simplifies your clothes problems! Dozens of easy-to-make, flattering designs smart both for now and later in the season. News of spring fashions and accessories. Special slenderizing designs. Clothes budget hints. Patterns for children, misses, adults. Price of book 15 cents. Book and a pattern together, 25 cents.

Send your order to The Journal, Pattern department, 117 East Fifth street, Santa Ana.

## Mary Stoddard Brother Starts Boy Friend Drinking Again, What Shall I Do? Query of 'Worried'

By MARY STODDARD  
"Worried" writes today on a problem which in one version or another has brought more than a few love affairs to the point of crackup. Talk directly to the boy you like. Tell him if he insists on drinking, whether it is with your brother or anyone else, you will stop seeing him. Then if he refuses to give up the vice for you, remember he is not the only congenial male in the world, and you are so young, it will be easy to make new friends and forget him, if necessary.

I think, too, it would be wise to explain to your mother and let her speak to your brother on his own account. Mothers are meant to straighten out troubles. Good luck to you.

Her letter follows: Dear Miss Stoddard: Perhaps my letter will sound silly, but you're my only hope now.

I am a sophomore in high school and have been going with a boy a little over two months. We've had grand times together, but it seems as if they're about to end. Before he started going with me he used to drink quite heavily. I made him promise not to drink when he was with me. He kept his promise up to about two weeks ago. He got acquainted with my brother, who likes to drink, and he has started again. (I've smelled liquor on his breath twice in the last week.) I feel sure that if he wasn't with my brother this wouldn't have happened.

I can't say anything to mother about this, because if she knew, I wouldn't be able to see him. He's the first boy I've enjoyed going with, so you see what it would mean if I had to break with him.

It's only natural that I should want a boy's friendship. Please can you tell me how to get him out from under the influence of my brother? WORRIED.

## JUNIOR OTTERBEIN GUILD HAS PARTY IN PATRONESS' HOME

The identities of these will not be disclosed until the annual mothers' and daughters' banquet in May.

The party also marked the culmination of a contest which has been conducted this year in the guild. A letter from Mrs. Knipp, missionary in Japan, was read. The girls and their patronesses served refreshments.

Guests were Mrs. Nettie Davis, Mrs. Maggie Stratton, Mrs. B. Mustard, Mrs. William Hart, Mrs. H. H. Sands, Mrs. Robert Emmerson, Mrs. G. E. Roman, Mrs. H. A. Colby, Mrs. Everett Johnson, Mrs. W. I. ## The Thinkers

Wherein women of the community express their views on topics of particular interest to women  
At what age should a girl get married?

Mrs. C. M. Featherly: I think a girl should have had plenty of experience before she is married. She should have worked some, know how to budget and have had a varied acquaintance of both sexes if she is to make her marriage a happy one. I do believe she should marry fairly young—about 22 or 23.

Mrs. George Miles: I think she should wait until at least 24 or 26. When a girl gets married, she's married for a long time and I think it's a good thing for her to have as much real girlhood as she can.

## FAMILY DINNER IS BIRTHDAY FETE

Having a birthday brought anniversary compliments to Miss Vera Getty Sunday at 6 o'clock when a family dinner was given at the home of her parents, Mr. and Mrs. William L. Getty, 1126 West Pine street.

Sweet peas were used to center the table and a decorated birthday cake highlighted the decorations.

## Tea Given As Farewell Honor

In parting compliment to Miss Rosa Boyd, who is leaving Santa Ana Saturday with her brother, Dr. J. P. Boyd, to live at Redlands, Mrs. T. E. Stephenson was hostess at an informal tea today at her lovely home at 1522 North Broadway.

More than 50 long-time friends of the honoree made their farewells at the tea hour. Prominent in club and social circles of the city, Miss Boyd has scores of friends throughout the community who regret her move to another city, and were happy for this opportunity to say an informal "goodbye."

Pale pink sweet peas centered the tea table. In the spring note, pastel tapers had been chosen for the silver tea service.

Friends of the hostess, Mrs. Sam W. Nau of Tustin, Mrs. William H. Spurgeon, Mrs. Robert Northcross and Mrs. Clarence Gustlin, poured. Mrs. Clarence Crookshank assisted Mrs. Stephenson in serving.

Several smaller parties have preceded the tea. Last Saturday night, Dr. and Mrs. P. R. Reynolds had Miss Boyd and her brother as guests at an informal dinner and Sunday, Mr. and Mrs. Sherman Stevens of Tustin were their hosts at a noon dinner.

## BIRTHDAY DINNER GIVEN BY MRS. A. W. GETCHALL

Scores of friends and relatives said their "happy birthdays" with cards, flowers and gifts Sunday at a dinner party for Mrs. A. W. Getchall at her home, 406 Halesworth.

The celebrant was hostess at a 6 o'clock dinner party officially to mark the day. The table was decorated with a decorative arrangement of stocks and snap dragons. Flowers which had been presented to the honoree added color to the house. A pretty birthday cake with lighted candles was set before the honoree to cut as the feature of the dessert course.

At the dinner, besides the honored guest, were Mr. Getchall, Mr. and Mrs. W. R. Sylvester, Mr. and Mrs. E. R. Roehm, Mr. and Mrs. G. W. Faul and son, Bob, and Mrs. Amanda Holmes.

## SUGARS GIVEN ATTENTION ON MART

Stock Buyers Nibble But Have Slightly Stock Appetites

By VICTOR EUBANK

NEW YORK, Feb. 25. (AP)—Buyers nibbled at scattered issues in today's stock market, but apparently, had little appetite for the list as a whole.

Various sugar, merchandising and specialty shares received attention and a few of the rails were in moderate demand. The trading pace was the slowest in a number of weeks.

On the upside fractions to a point or more, as the session neared the fourth hour, were Holly Sugar, Fajardo Sugar, Sears Roebuck, Montgomery Ward, Loew's, Midland Steel Products, Delaware and Hudson, Frisco, Union Pacific, Philip Morris, Yellow Truck and U. S. Steel. An early loss was cancelled by Western Union and replaced by a small gain.

Air Reduction, Johns-Manville and American Tobacco "B" were down 1 or 2 or more and Chrysler and Bethlehem Steel sagged. The utilities, oils and mines, were about unchanged to off slightly.

### New York Stocks

NEW YORK, Feb. 25. (AP)—After drilling dullly for four hours, the stock market finally suffered a sharp rally at the beginning of the final period.

Numerous losses of 1 to 4 or more points were recorded at the height of the selling wave. The movement trended out before the finish, but the close was weak. Transfers approximated 2,500,000 shares. Closing prices:

## HIGH SCHOOL WORK SCALE ADOPTED

The board of education last night adopted a minimum wage scale to be used as a basis for employment on the Santa Ana high school building project soon to be launched. The wages run from 50 cents an hour for unskilled labor to \$1.25 per hour for plasterers, modelers, steam fitters, and structural steel workers.

In adopting the wage scale, it was pointed out that it represented only a minimum, and that in all probability the wages actually would be higher.

Action on a resolution asking the federal government to change its offer of a loan and grant to a grant only was deferred until after March 3, at which time bids on the \$140,000 worth of school bonds advertised for sale will be opened by the board of supervisors.

May Get Better Rate  
In the discussion centering around the proposed resolution last night, it was explained that the government would take the bonds as security for the loan on a 4 per cent basis. Since it is possible that the bonds may be sold for less than 4 per cent, it was felt that the government loan should be rejected. Action, however, was deferred until after March 3, so that board members would feel secure in their knowledge that the bonds had been sold.

Plans for reconstruction and repairing of Edison school again were discussed at the board meeting last night. At a former meeting, Fred Eley, architect, was instructed to draw plans for the proposed reconstruction work.

Last night he told members that the Edison Grammar school auditorium could be reconstructed to a point where it will meet code requirements for approximately \$8,000. The money for this construction work will come from the school district's general funds.

Representatives of the Edison school Parent-Teachers association, present last night, were told that the board was limited to \$26,000 for work on the class room building. This amount has been set aside in the Green bill funds for such work.

Mr. Eley presented plans which called for demolition of a portion of the building and the construction of four class rooms, a nurse's room, teachers' room and lavatory. The work, he said, could be completed for approximately \$26,000. Detailed plans of the work will be presented at the next meeting of the board when board members would be asked to take definite action on the proposed project.

## MORE ABOUT TURF AGENCY

(Continued From Page One)

and himself to confer with a committee of the church to see if a solution of the betting question can be worked out.

Warner Raps Betting  
In presenting the petition, Dr. Warner said he believes betting on horse racing, as carried out by the agency, is illegal. He asked for an investigation "in order to protect the good name of the city."

Dr. Warner said that the betting agency takes a great deal of money out of the city.

"It seems anomalous," said Dr. Warner, "that we should allow the unemployed to gamble away the substance that was taxpayers are extending to them. The sooner America finds it can't gamble its way into prosperity the sooner we are going to get out of the debacle in which we are."

"Civilization is at a low ebb. Money is being lost. Little discrimination is exercised on the part of the operators. There are some kinds of business that you can't expect to operate within the terms of their licenses."

Working on 'Curb'  
Mayor Rowland informed the group that Mr. Blodgett, Police Chief Floyd Howard and Police Commissioner Plummer Bruns have been working for three weeks to find if it is possible to curb such operations.

S. M. Davis, local attorney, reported that the city of Glendale is operating under an ordinance prohibiting operation of such betting agencies and that it has secured convictions under the ordinance. He also said there is a case pending in a San Bernardino court, in which legality of such betting has been challenged.

"You can't be in jail for trying to prohibit it," said A. J. McFadden, prominent rancher. He said that many of Attorney General Webb's legal opinions have been upset by supreme court decisions.

Dr. Warner seconded this view by saying he had known times when the attorney general was glad to rescind his opinions when he found the people determined to take an opposite stand.

In outlining legal aspects of the situation, Mr. Blodgett explained that if any betting is done in violation of the horse racing act, the offense is a felony and therefore must be prosecuted by the district attorney. A city attorney, he explained, cannot prosecute such a violation.

Until he found that Mr. Webb had rendered his opinion, and the district attorney's office here in Los Angeles agreed with it, Mr. Blodgett had intended to draw an ordinance prohibiting the receiving and forwarding of bets.

## FLAYS DOLPH OFFICIALS IN COURT

Executors of the will of the late Blanche Dolph of Dana Point were accused today of getting a third of her estate within three months before her death last January. The accusation was made by Judge Robert M. Clarke in Superior Judge H. C. Ames' court, in arguing a motion to dismiss the executors' attempt to have Florence Dolph, sister, removed as special administrator of the estate.

The executors are O. Howard Lucy, business manager of the Bible Institute at Los Angeles, and Miss Lucilla McGaughey, for 25 years companion of the late Miss Dolph.

The estate has been variously valued by the executors at \$10,000 to more than \$100,000.

Corporation Formed  
Mr. Lucy testified yesterday that at Miss Blanche Dolph's request he assisted in forming the Dolph corporation in which her property was vested. He said 66,000 shares of stock with a par value of one dollar per share were issued to Miss Dolph and that the remaining 34,000 shares never were issued.

In the application for the permit to sell stock the property was valued at \$66,000.

Mr. Lucy said Miss Dolph gave him 66,000 shares of this stock and gave Miss McGaughey 13,200 shares. It evidently was this stock to which Judge Clark referred.

Mr. Lucy testified yesterday that he sold his stock to the Western Management corporation of Los Angeles for \$15,000. Today, however, under questioning by Nathan Newby, attorney for the executors, it was brought out that the stock was turned over to E. B. McKelvey, president of the Western Management corporation, to be used as collateral for a loan, if needed.

Mr. Lucy said Miss McGaughey still has her stock.

Negotiations Told  
Under questioning by Rex Hardy, also counsel for Miss Florence Dolph, Mr. Lucy admitted yesterday he had negotiated with a "New York group" for sale of the Dolph real estate and had set a price of \$4000 to \$4500 an acre for the 368 acres of land. This, he said, was just an asking price, however something to start negotiating on.

Mr. Newby, in his argument today, attacked appointment of Miss Florence Dol

### David and Goliath

SO FAR the assault on the huge Southern California gambling trust by Santa Ana church leaders seems to be making good progress. At request of the churchmen, the city council has deferred action on a license fee for a local turf agency and has consented to look into the possibility of a test case against the state horse racing act.

As the matter stands at present, city officials appear to have been deprived by the state of authority to halt organized public betting on the races. The law against gambling is inoperative in this case because a group of legislators decided at a recent session that betting on the races is no longer to be classified as gambling. Just where they picked up that idea, we don't know.

Bucking the big gambling trust is no small proposition. Santa Anita track is owned by rich and powerful men who want to keep getting those phenomenal profits. Tens of thousands of people find genuine entertainment watching and wagering on the races. Hundreds of tin-horn gamblers and touts make a living on bets and tips. Tax money from the bets is distributed cleverly among county fair associations, educational institutions and other groups which want to keep a spoon in the gravy. It's such a big affair that throwing a bookie in jail and closing up a turf agency here and there won't make much difference.

Besides that, the principles involved make it much more than simply a local issue. If organized public gambling is illegal and improper in Santa Ana, it also is illegal and improper in Santa Anita and other communities. And if one kind of public gambling is wrong, so are all kinds.

Not everything is on the side of the gamblers, however. There are moral and economic issues involved which no one can confute—issues which have a way of winning out in the long run.

Everybody knows that the pari-mutuel machine is a sucker trap, in which the victim starts out with \$2 or more and ends up with worthless tickets. Everybody knows that a gambler profits at the expense of others without giving an equivalent return for the money. Everybody knows that gambling victims wind up broke and in debt, because when they lose they lose heavily and when they win they spend heavily. Everybody knows of cases where a man has started in with a few dollars and ended up with a mortgage and a miserable family. Everybody knows that organized gambling drains money from the more legitimate channels of trade, depressing business.

The oncoming battle may look like a case of David tackling Goliath. But David has a few very select pebbles in his sling, and we wouldn't want to be Goliath when they start whizzing through the air.

If Japan and Russia start a war we hope they'll do their battling in the wilds of Mongolia, where there are few innocent bystanders to get hurt.

### Investigating Townsend

PERSONAL attacks upon Dr. F. E. Townsend by certain politicians and congressmen are the most boorish things we have read in a long while.

The aged physician's silence in response to the charges of "hoax" and "charlatan" gives him the better of the argument without saying a word.

We know Dr. Townsend too well in Santa Ana to pay any attention to the rantings against him, but in other states he is not so well known. Say what you will about his pension plan—and there is an honest disagreement about it—there is no question of its founder's sincerity or that he has been seeking at a sacrifice to his own health to institute a remedy for the misery that has come to America.

This attack is typical of every attack made by tight-minded politicians on innovators whom they fear. If the Townsend plan is impractical, it can be revealed without slandering the good doctor.

Meanwhile it is quite in order for congress to go ahead with an investigation of the plan. In fact, congress should enact no pension law without a most searching investigation of it, for such plans are far too revolutionary to be put into operation without a thorough-going scrutiny by experts.

Wives whose husbands drink will be glad to know that the trouble can be ended by a simple operation. Just cut out the liquor.

### Council Preserves Bowl

WISELY has the city council decided to preserve the Municipal bowl for use of local athletic teams instead of surrendering it to out-of-town auto race promoters.

The ear-splitting racket of the motors and the infernal stench of burned fuel of racing cars justified the protest of residents in that section of the city. And the use of oil and gravel on the field for a race track hampered scholastic football games and other amateur sports. It is doubtful if the rentals received from promoters offset the damage and discomfort caused.

Santa Ana is too short on public recreation grounds to permit what we have to be ruined by abuse.

With the Sinclair-McAdoo split in the Democratic ranks and the Merriam-Hoover fracas in the Republican camp, the average California voter could not be blamed for "taking a walk" on both parties.

### Whimsies of O. O. McIntyre

The names that flare in lights across theater facades are not always the most highly paid entertainers in New York. They are often topped by the suavely polished singers and such, moving table-to-table intimacy in cocktail bars and night clubs. Especially is there a demand for the exploiters of sophisticated and topical lyrics that mirror the world events. A double entendre line that may be caroled with a wink is worth a lot. The king-pin of such sophistries is Dwight Fiske.

In full evening dress splendor, he draws a four-figured salary for talking songs that achieve polite ribaldry without vulgarity. Clark and Delys, also glibly versed, essay the same silken-voiced, razor-edged thrusts at the headline escapades.

Too, there are Endor and Farrell, a bit rowdier, but cleaving to the whispered innuendo. Such singers in the muted meter as Eve Symington, Jean Sargent and Frances Madux receive the pay of actress stars. Also the mimics Sheila Barrett and Eddie Carr who portray pianissimo.

Indeed Jimmy Durante is about the only apostle of confusion and crash left that might be a night club draw. Silence is the reigning motif. Jazz orchestras have been kicked out for exponents of the soft and rhythmic music. It is the night club's way of showing the world it has become refined. A well planned gesture that de-toured it from oblivion, incidentally.

When Jed Kiley was running a night club in Paris during the war a gentleman who introduced himself as "Lord Chester" claimed to have lost his coat check. Jokingly Kiley told him he never let anyone in the wrap room on that gag, adding he got a fur coat that was his coat. "Lord Chester" said he would wager a bottle of champagne his coat was the oldest and raggediest in the lot. Kiley took him up and had a girl attendant pick out the most disreputable looking coat. It was his, and in ordering the champagne Kiley discovered "Lord Chester" was the Prince of Wales. It was an old raincoat he had worn at the front.

And it was to Kiley on another of the prince's incognito rounds of Montmartre that the case man observed he had never married and never would. The prince stuck up his hand and said: "Shake, brother!" Then in sudden blurt: "After all, England had a virgin queen, didn't she?"

The Harriman National Bank building, so long deserted and a flinch to hundreds of depositors in its neighborhood, has been done over in a striking, brass-plated colonial design and is now occupied by an established, long honored bank. The famous corner in its stark desolation was next to the Wendell mansion, the midtown's greatest eyesore. I always passed it with a shudder. Had it not been for a friend who sat up all night at a time when he was himself in the shadows, urging me to discontinue banking there, I would have lost a lifetime of frugal savings. As did many friends.

One of the slick gags of trailing bad debtors is the phoney inheritance bureau. To the bad debtor's last address they send a questionnaire indicating he is in line for a fortune and must reveal his business and present address. Generally he does promptly and then the collectors swoop down. Tableau!

In the days when the ornithomancy—a bird with a large bill—was always on the wing for me there was one in especial who always seemed to pop out of unexpected places. He called me to the side about a certain matter. To be more specific, I had on a loose evening run up a bit of \$16.80 in a Dayton, O., ratskeller, and what did I intend to do about it? I was juggling settlements in those days, and he was far down on the list. He accented me everywhere. But the climax came in an amusement park one night when the ferris wheel in which I was riding with the boss' stenographer stalled on the top swing. On the opposite side a fellow arose—it was none other than he—and antedating Al Smith some 20 years observed: "Well, here we are!"

**HAZARD IN OVER-GRAZING**  
DALHART, Tex. (AP)—Unless farmers and ranchers check the practice of placing large herds on wheat and stalk fields, B. W. McGinnis, soil conservation service officer, warns Dallam county that soil will be as vulnerable to spring winds as last year. He stated over-grazing would destroy the present advantage of a 75 per cent better vegetative covering here than a year ago.

### The Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

WASHINGTON, Feb. 25.—How desperate is the game of tit-tat-toe going on between Germany, France, Great Britain and Russia is indicated in confidential dispatches cabled here. It would be amusing if it were not so packed with dynamite.

The one question uppermost in the chancelleries of Europe is: "How long will Hitler wait?" It is chalked up as a dead certainty that when Hitler is ready he will strike.

Latest French worry is alleged German armament in the demilitarized Rhineland.

The French first pointed to large brick plants and cement works in the Rhineland which looked suspiciously like disguised fortresses. The Germans replied that they had a right to make bricks even in a demilitarized zone, but added that they had perfected a secret brick process which they did not want inspected.

The French then pointed to Germany's underground airdromes in the Rhineland, capable of housing thousands of planes. The Germans replied that there was nothing in the treaty of Versailles to prevent them from housing commercial planes underground.

Finally, the French pointed to 40,000 German troops in the Rhineland.

To this the Germans replied: "That is a mistake. We have 80,000 troops. But they are Brown Shirts, and we need them to maintain order."

The visit of Harold A. Wolff, czar of the Harvard cram-school, to the White House recently has disclosed a secret scholastic skeleton in the Roosevelt family closet. Wolff runs the tutoring bureau just outside the Harvard Yard, to which students in difficulty flock to prepare for examinations.

Alleged reason for his pilgrimage to Washington was to confer with the President regarding the Democratic campaign organization in New England. But this was not the real reason.

It was really far simpler than that. Franklin Delano Roosevelt, Jr., Harvard junior, made the dean's list at mid-year examinations this year, a feat almost impossible to balancing the New Deal budget. The dean's list is a periodic honor roll of students high in scholastic marks.

At one point in his collegiate career, Franklin's standing was so poor that he disappeared from college about a month, going into seclusion at the White House to catch up with his work.

Harvard authorities were in an embarrassing spot. There was some talk that he might have been dropped. But Harold Wolff saved the day.

So last week Wolff trekked down to the White House, with his wife, and even the secretary of his tutoring bureau.

### WHITE HOUSE MUSIC

While music seldom emanates from the second floor of the White House, there is a phonograph in the hallway, a baby grand piano in the sitting room adjoining the President's study, and an old-time upright phonograph in the sun room.

The sun room machine stands silent under the weight of two Chinese cloisonne vases and an all-glass picture frame bearing the engraved letters "F. D. R." The photograph is of the President in business suit, white shirt and four-in-hand.

### Twenty-Five Years Ago

FEB. 25, 1911

Mr. and Mrs. A. J. Crookshank were hosts last evening at a reception for new members and strangers at the Congregational church. The following program was rendered: Percy Richards, Miss Mary Wakeham, Maurice Phillips, and Mrs. Ella Fyfe rendered delightful vocal numbers and Miss Ruth Deardorff and Percy Richards played instrumental numbers.

A party of high school girls were hostesses last evening at the home of Miss Edna McMurphy. Those present were Misses Hulah Clark, Beth Merigold, Alberta Black, Irene Edwards, Lillian Walker, Hedwig Reuter, Helen McKean, Ruth Munger, Audrey Elm, Edna McMurphy and Hester Robinson; Messrs. Elmer Dietrich, Lawrence Eaton, John Criddle, Guy Gale, Robert Paine, Jack Tedford, Paul Wilcox, Harry Osborne and Herbert Timmons.

A pleasant social was held by the intermediate class of the United Presbyterian church Sunday night last at the home of Miss Wilma Andrews. Miss Catherine Finley and Mr. Snook rendered instrumental numbers.

### 1935 LICENSE PLATES

To the Editor: Even a casual observer of the cars that pass along the streets and are parked along the way, show that five to ten per cent are still carrying 1935 license plates, and some with no plates. Last October the writer saw a car on the street carrying 1934 plates.

Will someone in authority please explain why the law is not enforced? If even five per cent can get by, why not 100 per cent? A SUBSCRIBER.

### A WASHINGTON LEGEND

To the Editor: A Washington's birthday dispatch from Fredricksburg, Va., last Saturday, related that Walter Johnson, a superstar of baseball, had, in the presence of Governor Peery of Virginia and more than 600 shivering citizens, hurled a silver dollar across the Rappahannock at the point where legend tells us Washington threw a coin across the river. The press dispatches said of Johnson that "he wound up" and "took a run and jump and let the coin whang across the stream."

The Washington tradition was that he "jerked" or "flipped" the coin across the river; that is, that he threw it by a sudden short, quick movement of the arm. There was a story current many years ago that a party of tourists, including some notables, went out from the capital to visit the haunts of Washington in Virginia, and that they came to the spot where Washington was said to have "jerked" a dollar across the Rappahannock in his youth.

Discussion was had by some as to whether the thrifty George would have risked a silver dollar, when a stone would have served the purpose just as well. Others were incredulous, by reason of the

### What Other Editors Say

NEW STATE PRISON IN SOUTH

(Porterville Record)

In proceeding to acquire a site and to build a new state prison in Southern California the state authorities are launching an institution the purpose and objectives of which are highly significant. This is in pursuance of legislation adopted at the last session of the legislature. The projected prison will be the first of its kind in the country—a reformatory type of state prison. It will not be technically a reformatory—it will be a state prison but its basic objective will be the reformation of those committed to it. Quoting from the act itself:

"There is hereby established a prison for the confinement, discipline and instruction of prisoners. The board of prison directors shall establish the rules under which the prison shall be conducted for the purpose of reformation or confinement of those committed to it; and shall adopt such methods as the board may deem expedient to restore them to freedom as self-supporting and self-respecting members of the state."

This will be a farm prison. It will be committed first offenders or mild offenders, no matter what their age. These prisoners will be given useful work to do, to produce food for this prison itself and for other state institutions. The purpose, all down the line will be to reclaim these prisoners to honest, law-abiding living and to self-respecting citizenship.

Governor Merriam has assurances that money for construction of this prison can be obtained from the federal government. The state in this event will have only to provide the site. A commission, provided for in the act which establishes the prison, is now considering proposed sites.

### ONWARD, SCOUTS!

(The San Diego Sun)

It is encouraging to note that the membership of the Boy Scouts of America increased more than 6 per cent in the last year, bringing the number of Scouts over the 1,000,000 mark.

Here is a normal outlet for the energies of boys, providing them with the twin benefits of recreation and education at the same time. Were it not for the Scouts, hundreds of thousands of boys would miss some of the finest experiences of their early years.

Training in scouting, plenty of brisk exercise outdoors, association with other youths of these are but a few of the signal opportunities offered by this organization.

Scouting begins where the home leaves off. That is the gap ordinarily difficult to fill. The country can well afford to have many times 1,000,000 Boy Scouts.

### SKINNY SKRIBBLES

Around and About Town

Judge Frank Drumm is home from Mexico with a 200-pound fish and "other friends who went with him." Through Frank's courtesy the Rotary club today dined on silver bass. That is the name the judge gave the fish. Well, he caught it, and who has a better right to name it. The program committee should have had Senator Pitman as guest speaker. He belongs to the silver bloc. Understand the low down on how to catch a Mexican fish is to hold a United States license.

If Walter Johnson had told me he was going to throw a dollar across the Rappahannock I would have been on the other side.

The bank leasers club, encouraged by the sunshine, held a meeting Monday morning. It was equivalent to the appearance of the robin in the midwest, an earnest of returning spring. Met C. E. Jackson and tried to persuade him to join, but he said he was reducing his club memberships.

Pedestrian accident last Saturday occurring in the middle of the block is just another warning not to cross the street outside of the intersections. It's none too safe there.

Upton Sinclair, who announced some two years ago that he was through with politics, announces again that he is in politics, and will lead the Epics somewhere. A faint recollection passes through my radio station that a lot of Orange county citizens contributed to Sinclair's political decency during the Merriam-Sinclair gubernatorial campaign, and somehow or other I haven't been convinced they have changed their mind. Politics is like a case of love—it never runs smooth.

Well, it wasn't such a blue Monday after all. Some people would talk about something besides a talk race. Nothing takes the conversation out of a race quite so much or so quick as having bet your money on the wrong horse.

Waited until Bert Campbell left his printing office and then I went down to get a couple of memorandum pads. Usually get 'em cheaper from Frank Witmer. He sells 'em two for nothing. I always take two.

Flake Smith wanted to tell me something about some new air-mail stamps, and it is so seldom that I take the air, sent another fellow down to see him. Flake said they were very pretty, he had a limited supply, and with midwest highways blocked he thought there was a better chance of getting through with an airmail stamp. But when the conversation closed he hadn't said a word about "bargain day."

No one gives much attention to electric watts until the lights go out, and then they want to know. That is as far as I go with this item. I've a birthday coming next November and I want to be here.

Met a friend today who said he put some money in one of those machines which goes round and round, but the money didn't come out where he expected. It seldom does, but that does not lessen the desire to see the wheels go round.

John Tuffree of Placencia sends Brick Gaines a long letter about conditions in Jerusalem, especially as it pertains to the growing of oranges. John did not say so, but if the outlook is as he paints it, it wouldn't surprise me if John did not write his letter leaning up against the crying wall.

Migrated out to the Santa Ana Commercial Ice company yesterday to see the fish brought back from Mexico. J. Drumm and company. They had 'em in the refrigeration department. I don't see how they can catch those fish with a line. Some of 'em weigh 200 pounds. Ben MacMullen said he knew how they caught 'em. "Oh, well, that's a part of fishin'."

Because I forgot a friend's birthday he sent word he is going to shoot me. If he does it will be the first thing I've ever got that I did not pay for.

Met a former Iowan and he wanted me to say something about the Iowa picnic to be held in Los Angeles next Saturday. Seems to me I noticed an item about that picnic in the papers. Anyway, why did he want me to say something about it if he already knew about it? Oh, well, what's the difference. If you go some old-timer will push right up to you and say: "You don't remember me, do you?" And the conversation starts from there. In advance of the Los Angeles forecast I want to get in my estimate of 150,000 now. It will be about half right, and that's as near as the Los Angeles papers usually get the attendance. But that won't take away one ounce of pleasure out of the picnic.
